Changing Entertainment. Again.

# DRD222RD (Second-Room Receiver)

## Accelerated 32-Bit Processor

A 32-Bit processor is at the heart of this new system. The accelerated performance allows immediate access to all the new interactive features.

## Advanced On-Screen Program Guides

### • SurfGuide™

The SurfGuide brings up seven channels of programs at a time. Surf up and down the guide, viewing the current 30-minute or up to a two-hour time window of programming. You'll never miss out on any of the action of your current show, because it stays active in the background while you explore other channels.

### • Information Guide

Lists five different channels of programming at a glance. Details on the current highlighted program are displayed in a banner at the top of the screen. Program information changes automatically as the consumer navigates through the guide and highlights different programs.

### • Full Seven-Line Program Guide

Provides channel and program title information for seven different channels covering a two-hour time window. Arrows help indicate programs starting before or ending after the current time shown on the grid.

## Interactive Channel Banner

The new translucent, see-through Interactive Channel Banner makes access to the key features of the DIRECTV® System fast and easy. We've taken the most exciting new features, created icons for each of them, and positioned them in the banner for direct access.

### • The Guardian™

With this feature, parents have the ability to lock out specific channels and set rating and spending limits. They will be able to set specific viewing times for both the weekdays and the weekends.

### • AlphaSort™

AlphaSort allows you to sort the current guide alphabetically, starting with any letter you choose. Go directly to any listed show with the push of one button.

### • Scout™

The new Scout feature searches the entire program guide to find matches to eight key words or phrases that you enter. Great for keeping track of your favorite movies, sports teams, actors and actresses!

### • Home Control<sup>2</sup>

Used in conjunction with our Home Control accessories<sup>2</sup>, the receiver can control lights and appliances directly, or while you're away, through the built-in timer function.

## 8-Event Scheduler

Allows you the ability to program your receiver to turn on, tune to a specific channel, and turn off at a pre-set time.

## Master Touch® Universal IR Remote (CRK17SA)<sup>3</sup>

Ergonomic design and color-coded buttons provide complete Satellite System operation plus primary function control of virtually every brand of remote controllable TV.

1 DIRECTV is a trademark of DIRECTV, Inc., a unit of Hughes Electronics Corp.

2 When used in conjunction with our Home Control HCDSS10 accessory kit.

3 Controls the RCA DIRECTV System plus most brands of remote controllable TVs. Feature compatibility varies by brand and model.

Residents of Alaska: The RCA DIRECTV receiver requires a larger dish antenna (not included) to receive DIRECTV® programming. Signal reliability and performance will be susceptible to degradation especially during adverse weather conditions.

Check your local dealer or installer for information on larger antennas which may be compatible with the RCA DIRECTV receiver.
